

AI Workflow Kit

AIToolsCenter.in • Updated May 2026

Plug-and-play prompts for creators, developers, students, and small teams. Copy, adapt, and launch faster.

1) Content Workflow (Blog + Social)

Prompt: You are a senior content strategist. Build a 4-part outline for [topic] aimed at [audience] with practical examples.

Prompt: Turn this outline into a 900-word post with a clear hook, subheadings, and CTA.

Prompt: Repurpose this blog into: 3 LinkedIn posts, 5 X posts, and 1 newsletter summary.

2) Research Workflow

Prompt: Summarize this topic in 7 bullet points, include key risks, opportunities, and unanswered questions.

Prompt: Create a comparison table of top tools for [use case] with columns: Free Plan, Best For, Limitations, Pricing Notes.

3) Coding Workflow

Prompt: Act as a senior engineer. Review this code for correctness, performance, and readability. Return a patch-style suggestion list.

Prompt: Generate table-driven tests for this function and include edge cases.

4) Video Workflow

Prompt: Write a 60-second short video script about [topic] with hook, 3 key points, and ending CTA.

Prompt: Generate 10 thumbnail text options under 5 words each.

5) Business Workflow

Prompt: Create a weekly AI operations checklist for a small team focused on content, sales, and support.

Prompt: Suggest 5 automations using Zapier/Make for [business type].
